Realizing Employee-Friendly Workplace Environments ·

The Bandai Namco Group is working to establish environments so that diverse human resources can work while remaining healthy in body and mind. To create a supportive work environment for all employees, Group companies have established various systems aligned with their business formats. These include regulations for ensuring a work-friendly environment for every employee as well as flexible working arrangements such as flextime systems, discretionary work systems, shorter working hours, and staggered shifts. In addition to regular physical checkups and stress checks, within the Group Administrative Headquarters of Bandai Namco Holdings, we have assigned a person in charge of measures to address long working hours. By establishing environments in which employees can work with peace of mind, we are striving to enhance employee satisfaction.

In accordance with the Act on Advancement of Measures to Support Raising Next-Generation Children, Bandai Co., Ltd., Bandai Namco Entertainment Inc., Bandai Namco Amusement Inc., and MegaHouse Corporation have received the Kurumin certification from the Ministry of Health, Labour and Welfare in recognition of their support for childrearing. Principal companies in the Bandai Namco Group have introduced performance-linked remuneration frameworks that correlate a company's operating profit with employee bonuses to encourage employees to take on challenges. In addition, we have established systems for the proposal of ideas regarding IPs, products and services for Units and companies, and other systems. In these ways, we have

established frameworks that transcend boundaries between companies and departments and enable employees to make their own proposals. Furthermore, by introducing systems that give recognition to teams and employees for taking on challenges, we are working to establish foundations and a corporate culture that make it easier to address challenges with a positive attitude.

Facilitating Active Careers for Diverse Human Resources

The Bandai Namco Group emphasizes the individual talents and characteristics of each employee, and is working to foster diversity in line with business characteristics. In promoting active careers for women, we are implementing fair evaluations based on true capabilities and experience, and the number of female managers continues to increase in line with growth in the number of female employees. Also, accompanying business globalization, the number of locally hired employees is increasing each year.

Moreover, we are implementing a variety of initiatives to promote the employment of people with disabilities. Bandai Namco Will Co.,

Ltd., a special subsidiary, supports the Group's businesses in a variety of ways, such as office cleaning and assistance and toy and game development support. In addition, we are aiming to increase understanding of disabilities. For Group companies in Japan, we operate Yuni-nabi, a site that draws on our insight in hiring people with disabilities to provide support for the retention of employees with disabilities working directly for Group companies and to foster a correct understanding about disabilities. Other initiatives include internships for employees with disabilities at Group companies.

Conducting Engagement Surveys for the Group's Employees ······

Group companies around the world began conducting annual engagement surveys starting FY2023.3. These surveys cover such topics as "job motivation and desire to contribute to the company," "level of understanding and adoption of the Purpose," and "diversity and inclusion." Based on observations made each year, we

implement initiatives to increase the engagement of employees on a Groupwide basis and advance the establishment of environments that enable diverse, highly individual human resources to work energetically and have active careers.

Developing Human Resources

In accordance with our Purpose of "Fun for All into the Future," we are working under the ALL BANDAI NAMCO concept to transcend the barriers between regions and Units and work together as a unified group. In this way, we place importance on cultivating a sense of unity and developing human resources who will be active in global settings. At junctures depending on position and number of years with the Company, we implement Groupwide training that transcends Units. We are providing opportunities to forge connections within the Group and to become aware of new things. This is in parallel with initiatives in specialized fields aligned with business characteristics, where efforts are made to develop human resources at the level of Units and individual companies.

In addition, we are actively implementing personnel transfers among Units, businesses, and regions. We are working to develop human resources, who are the core of the Group, including taking steps to foster understanding of the Group's businesses. In these ways, we aim to support sustained development for society and companies by establishing workplace environments that facilitate mutual respect and enable everyone, including not only employees but also everyone else associated with the Bandai Namco Group, to work energetically.
