## 1. Qualitative Information Regarding Consolidated Results for the Second Quarter

### (1) Explanation Regarding Operating Results

During the second quarter (six months) of the fiscal year ending March 31, 2023, the future economic environment remained uncertain. While measures were promoted to prevent the spread of the novel coronavirus disease (COVID-19) in regions worldwide, the spread of COVID-19 variants, changes in the social situation, and rising raw material and crude oil prices, among other factors, affected economies and society worldwide, as well as customer lifestyles and preferences.

Under such circumstances, as part of our response against the spread of COVID-19, the Bandai Namco Group (“the Group”) has been giving the highest priority to the safety of our various stakeholders, including Group employees and their families and our customers, while continuing our measures to prevent the spread of the infection. From April 2022, with Purpose being the ultimate definition of who we are as a Group and the introduction of the new logo, we began our new three-year Mid-term Plan. In the Mid-term Plan, toward the aims of the Bandai Namco Group based on our Purpose, we have established a mid-term vision of “Connect with Fans” that aims to constantly meet the needs of global fans, a wide range of business partners, Group employees, and communities around the world and to foster broad, deep, multifaceted connections. As key strategies, we are promoting our “IP axis strategy,” “personnel strategy,” and “sustainability.” By propelling the emphasis measures, we will take advantage of the worldview and unique characteristics of IP (Intellectual Property: meaning characters and other intellectual property) to further evolve the “IP axis strategy” that aims to maximize IP value through the provision of the optimal products and services at the optimal possible times. We will also strengthen the global development of the “IP axis strategy,” enhancing our sense of unity and collective strength under the ALL BANDAI NAMCO concept, in order to achieve continuous growth.

In the second quarter (six months), in addition to taking swift measures in response to environmental changes, we promoted various initiatives to foster broad, deep, and multifaceted connections with fans through efforts such as strengthening collaboration among development of major IP in the media and our products and services. As a result, revenues for the Digital Business, the Toys and Hobby Business and the Amusement Business exceeded those of the same period of the previous fiscal year. Profit enjoyed large growth worldwide due to strong repeat sales of home video games with high profit margins in the Digital Business, and favorable sales of products for the mature fan base, card products and other products and services with high profit margins in the Toys and Hobby Business. In addition, due to weak yen, there was also an increase in foreign exchange gains associated with transactions denominated in foreign currencies.

Consequently, the Group’s consolidated results for the second quarter (six months) were net sales of 477,620 million yen (year-on-year increase of 21.3%), operating profit of 81,607 million yen (year-on-year increase of 32.2%), recurring profit of 92,365 million yen (year-on-year increase of 44.1%), and profit attributable to owners of parent of 66,557 million yen (year-on-year increase of 68.4%).

Operating results by segment are as follows.

Effective from the first quarter of the fiscal year ending March 31, 2023, the Group changed the classification of its reportable segments. Consequently, in the following year-on-year comparisons, the figures for the same period of the previous fiscal year have been restated into the figures for the classifications after the change.

#### Digital Business

As for the Digital Business, in home video games, repeat sales were strong mainly overseas for existing titles for worldwide distribution such as major title *ELDEN RING* launched in the previous fiscal year, contributing to results. In addition, the sales of new titles launched during the second quarter (six months) such as *Digimon Survive*, were stable. In network content, sales were strong due to ongoing measures targeting users for key titles such as the *DRAGON BALL* series and *ONE PIECE* and for titles for which we launched service in the previous fiscal year.

As a result, net sales in the Digital Business were 193,897 million yen (year-on-year increase of 29.6%), and segment profit was 44,649 million yen (year-on-year increase of 71.7%).

#### Toys and Hobby Business

As for the Toys and Hobby Business, products for the mature fan base such as plastic models of the *Mobile Suit Gundam* series, collectible figures, and character lotteries performed favorably worldwide mainly due to the successful outcomes produced by sales, marketing, and expansion of the product lineup. In Japan, long-established IP toys, as well as card products such as the *ONE PIECE* trading card game and digital cards of the *Mobile Suit Gundam* series, etc. and confectionery products such as *Charapaki* were popular.

As a result, net sales in the Toys and Hobby Business were 213,368 million yen (year-on-year increase of 19.8%), and segment profit was 33,562 million yen (year-on-year increase of 1.4%).

### **IP Production Business**

As for the IP Production Business, we changed our organizational structure to integrate resources and know-how related mainly to visual, music, and live events with the aim of reinforcing our IP creation. Under this new structure, in relation to IPs such as the *Mobile Suit Gundam* series and the *LoveLive!* series, we produced video works, sold and distributed visual and music package software, held live events, and conducted licensing business, but licensing revenue fell short of that of the same period of the previous fiscal year when IP-related licensing revenue was strong.

As a result, net sales in the IP Production Business were 35,065 million yen (year-on-year decrease of 2.9%), and segment profit was 3,459 million yen (year-on-year decrease of 13.7%).

### **Amusement Business**

As for the Amusement Business, despite the impact of the spread of COVID-19 in some region, the facilities business saw recovery with net sales of existing amusement facilities in Japan for the second quarter (six months), amounting to 121.6% that of the same period of the previous fiscal year. In addition, the Amusement Machines Sales Business performed favorably in Europe and the U.S. mainly. For the Amusement Business, in addition to continuing to improve efficiency, we will aim to strengthen the revenue base by promoting initiatives that only the Bandai Namco Group can offer, such as store development through collaboration with the Group's products and services.

As a result, net sales in the Amusement Business were 48,657 million yen (year-on-year increase of 24.7%), and segment profit was 4,804 million yen (year-on-year increase of 96.3%).

### **Other Businesses**

Other Businesses consist of companies that conduct businesses such as logistics support and other kinds of administration and operational support for each of the Group companies. We have been making efforts to manage such operations related to Group support in an efficient manner.

Net sales in the Other Businesses were 15,070 million yen (year-on-year increase of 10.5%), and segment profit was 456 million yen (year-on-year decrease of 21.4%).

## **(2) Explanation Regarding Financial Position**

Total liabilities amounted to 277,416 million yen, a decrease of 999 million yen from the end of the previous fiscal year. The main factor was a decrease of 17,036 million yen in other current liabilities mainly due to a decrease in accounts payable-other, despite an increase of 13,157 million yen in trade payables.

Total net assets stood at 632,721 million yen, an increase of 48,487 million yen from the end of the previous fiscal year. #### **(Changes in Accounting Policies)**

(Application of US GAAP Accounting Standards Update (ASU) No. 2016-02 "Leases")

Effective from the first quarter of the fiscal year ending March 31, 2023, the Company's consolidated subsidiaries in the United States have applied the US GAAP ASU No. 2016-02 "Leases."

ASU No. 2016-02 requires the lessee to recognize both the right-of-use assets, which is the right to use the underlying assets, and the lease liabilities, which is the obligation to make lease payments, for all leases in principle. In applying this update, the Company used the method in which it recognizes the cumulative effect of retrospective adjustments as of the commencement date of application.

As a result of this change, in the consolidated balance sheets for the second quarter under review, current assets increased by 974 million yen, property, plant and equipment increased by 1,998 million yen, current liabilities increased by 267 million yen, and long-term liabilities increased by 2,705 million yen. Furthermore, the application of the update had only a minimal effect on operating profit, recurring profit, and profit before income taxes in the six months ended September 30, 2022. Moreover, the application had no impact on the opening balance of retained earnings.

(Application of Implementation Guidance on Accounting Standard for Fair Value Measurement)

The Company has applied the "Implementation Guidance on Accounting Standard for Fair Value Measurement" (ASBJ Guidance No. 31, June 17, 2021) effective from the beginning of the first quarter of the fiscal year ending March 31, 2023, and it has applied the new accounting policy provided for in the Implementation Guidance on Accounting Standard for Fair Value Measurement prospectively in accordance with the transitional treatment provided for in paragraph 27-2 of the Implementation Guidance on Accounting Standard for Fair Value Measurement. There is no impact on the quarterly consolidated financial statements.
