#### 1. Overview of Operating Results and Others

#### (1) Overview of Operating Results for the Period (April 1, 2022 to March 31, 2023)

During the fiscal year ended March 31, 2023, the future of the economic environment around the world remained uncertain. While restrictions on activities implemented due to the novel coronavirus disease (COVID-19) were increasingly relaxed, the spread of COVID-19 variants, changes in the social situation, fluctuations in the prices of raw materials and foreign currency exchange rates, and surging fuel prices, among other factors, affected society and the economy as well as customer lifestyles and preferences.

Under such circumstances, from April 2022, with the introduction of our Purpose as the ultimate definition of who we are as a Group and the introduction of a new logo, we began our new three-year Mid-term Plan. In the Mid-term Plan, in order to achieve the aims of the Bandai Namco Group based on our Purpose, we have established a Mid-term Vision of "Connect with Fans" that aims to constantly meet the needs of global IP fans, a wide range of business partners, Group employees, and communities around the world and to foster broad, deep, and multifaceted connections. As priority strategies, we are promoting our IP axis strategy, personnel strategy, and sustainability. By propelling the priority strategies, we will take advantage of the worldview and unique characteristics of IP (Intellectual Property: meaning characters and other intellectual property) to further evolve the IP axis strategy that aims to maximize IP value through the provision of the optimal products and services at the optimal times. We will also strengthen the global development of the IP axis strategy and enhance our sense of unity and collective strength under the ALL BANDAI NAMCO concept in order to achieve continuous growth.

In the fiscal year ended March 31, 2023, in addition to taking swift measures in response to environmental changes, we promoted various initiatives to foster broad, deep, and multifaceted connections with fans through efforts such as strengthening collaboration among major IP development in the media and our products and services. Moreover, we stepped up Group-wide, under the ALL BANDAI NAMCO concept, working together across regions and businesses. As a result, sales of products and services with high profit margins, such as major titles of network content and repeat sales of home video games in the Digital Business, as well as products for the mature fan base and card products in the Toys and Hobby Business, contributed to performance around the world. Furthermore, live events in the IP Production Business and facilities in the Amusement Business, given the intensifying competition in the market environment around the world, we thoroughly reviewed the status of the development of titles and our business plans with the goal of providing titles focused on quality, and as a result, we recorded valuation losses, etc. on certain work in process. We also recorded foreign exchange gains related to foreign currency transactions in non-operating income due to weak yen.

Consequently, the Group's consolidated operating results for the fiscal year ended March 31, 2023 were net sales of 990,089 million yen (year-on-year increase of 11.3%), operating profit of 116,472 million yen (year-on-year decrease of 7.2%), recurring profit of 128,006 million yen (year-on-year decrease of 4.2%), and profit attributable to owners of parent of 90,345 million yen (year-on-year decrease of 2.6%).

#### Operating results by segment are as follows.

Effective from the fiscal year ended March 31, 2023, the Group changed the classification of its reportable segments. Accordingly, as for the following year-on-year comparisons, the figures for the previous fiscal year have been restated into the figures for the classifications after the change.

#### **Digital Business**

As for the Digital Business, in home video games, repeat sales were strong mainly overseas for existing titles such as *ELDEN RING*, a major title for worldwide distribution launched in the previous fiscal year, contributing to results. In addition, the sales of multiple new titles launched during this fiscal year were stable. In network content, sales were strong for key titles such as the *DRAGON BALL* series and *ONE PIECE* and for titles that commenced service in the previous fiscal year as a result of collaboration with IP development in the media and ongoing measures targeting users. Compared with the previous fiscal year, changes in the product mix, in addition to differences in the composition of the titles of home video games, affected profits. Furthermore, in this business, given the intensifying competition in the market environment around the world, we thoroughly reviewed the status of the development of titles and our business plans with the goal of providing titles focused on quality, and as a result, we recorded valuation losses, etc. on certain work in process of approximately 13.0 billion yen.

As a result, net sales in the Digital Business were 385,681 million yen (year-on-year increase of 2.0%), and segment profit was 49,339 million yen (year-on-year decrease of 29.1%).

#### **Toys and Hobby Business**

As for the Toys and Hobby Business, while it was impacted by rising prices for raw materials and fuel caused by the weakening of the yen, its overall performance remained strong due to efforts to expand the categories that are doing well, advance global business development, and strengthen production operations. Specifically, products for the mature fan base such as plastic models of the *Gundam series*, collectible figures, and character lotteries continued to perform favorably around the world mainly due to the successful outcomes produced by sales, marketing, and expansion of the product lineup. In addition to these, card products such as the *ONE PIECE* trading card game and digital cards of the *Gundam series*, confectionery products such as *Charapaki*, and capsule toys were popular. In the fourth quarter of the fiscal year ended March 31, 2023, the Business recorded valuation losses, etc. on inventories.

As a result, net sales in the Toys and Hobby Business were 447,491 million yen (year-on-year increase of 19.8%), and segment profit was 59,538 million yen (year-on-year increase of 13.8%).

#### **IP Production Business**

As for the IP Production Business, we changed our organizational structure to integrate resources and know-how related mainly to visuals, music, and live events with the aim of reinforcing our IP creation. Under this new structure, we produced and distributed video works, sold visual and music package software, streamed videos, held live events, and conducted licensing business in relation to IPs. As a result, the performance of activities such as video streaming and licensing businesses related to video works, such as the *Gundam series*, the *LoveLive! series*, *That Time I Got Reincarnated as a Slime*, and *BLUELOCK*, were strong. Furthermore, with COVID-19 restrictions in Japan being increasingly relaxed, the business for live events and *GUNDAM FACTORY YOKOHAMA* exceeded that of the previous fiscal year.

As a result, net sales in the IP Production Business were 81,748 million yen (year-on-year increase of 2.2%), and segment profit was 10,645 million yen (year-on-year increase of 20.5%).

#### **Amusement Business**

As for the Amusement Business, despite the impact of the spread of COVID-19 causing closures of facilities in certain regions and the impact of rising utility costs caused by increased fuel prices, net sales for existing amusement facilities in Japan increased to 114.9% year on year. In addition, we stepped up store development through collaboration with the Group's products and services for Bandai Namco Cross Stores and GASHAPON Department Stores. Moreover, sales of arcade game machines such as CLENA3, a new product, were also strong. For the Amusement Business, we will continue to promote initiatives that only the Bandai Namco Group can offer, such as store development through collaboration with the Group's products and services, while also continuing to improve efficiency.

As a result, net sales in the Amusement Business were 104,602 million yen (year-on-year increase of 27.0%), and segment profit was 6,038 million yen (year-on-year increase of 49.0%).

#### **Other Businesses**

Other Businesses consist of companies that conduct businesses such as logistics support and other kinds of administration and operational support for each of the Group companies. We have been making efforts to manage such operations related to Group support in an efficient manner.

Net sales in the Other Businesses were 31,313 million yen (year-on-year increase of 13.2%), and segment profit was 1,165 million yen (year-on-year increase of 235.9%).

#### (Changes in Accounting Policies)

(Application of US GAAP Accounting Standards Update (ASU) No. 2016-02 "Leases")

Effective from the beginning of the fiscal year ended March 31, 2023, the Company's consolidated subsidiaries in the United States have applied the US GAAP ASU No. 2016-02 "Leases."

ASU No. 2016-02 requires the lessee to recognize both the right-of-use assets, which is the right to use the underlying assets, and the lease liabilities, which is the obligation to make lease payments, for all leases in principle. In applying this update, the Company used the method in which it recognizes the cumulative effect of retrospective adjustments as of the commencement date of application.

As a result of this change, in the consolidated balance sheets for the fiscal year ended March 31, 2023, property, plant and equipment increased by 2,755 million yen, current liabilities increased by 681 million yen, and long-term liabilities increased by 2,073 million yen. The application of the update had only a minimal effect on operating profit, recurring profit, and profit before income taxes in the consolidated statements of operations for the fiscal year ended March 31, 2023. Moreover, the application had no impact on the opening balance of retained earnings in the consolidated statement of changes in net assets for the fiscal year ended March 31, 2023.

(Application of Implementation Guidance on Accounting Standard for Fair Value Measurement)

The Company has applied the "Implementation Guidance on Accounting Standard for Fair Value Measurement" (ASBJ Guidance No. 31, June 17, 2021; hereinafter the "Fair Value Measurement Implementation Guidance") from the beginning of the fiscal year ended March 31, 2023, and, in accordance with the transitional treatment provided for in paragraph 27-2 of the Fair Value Measurement Implementation Guidance, it has decided to apply the new accounting policy set out therein prospectively. There is no impact on the consolidated financial statements.

#### (Segment Information)

#### a. Segment Information

#### 1. Overview of reportable segments

The reportable segments of the Company are components of the Group whose separate financial information is available and which are periodically evaluated by the Board of Directors in deciding how to allocate management resources and in assessing the performance.

The Group is made up of (1) three Units, one for each business domain, namely the Entertainment Unit (Digital Business, Toys and Hobby Business), the IP Production Unit, and the Amusement Unit, and (2) the affiliated business companies that mainly serve a supporting role for these Units. The business management company of each business leads the planning and promotion of the business strategies of the business for Japan and overseas.

Accordingly, the Group has the following four reportable segments: Digital Business, Toys and Hobby Business, IP Production Business, and Amusement Business.

The Digital Business conducts planning, development and distribution of network content, and planning, development and sales of home video games. The Toys and Hobby Business conducts planning, development, production and sales of toys, capsule toys, cards, confectionery and foods, apparel, sundries, plastic models, prizes, stationery, and other products. The IP Production Business conducts planning, production and operation of visual and music content such as animation, operation and management of copyrights, artist discovery and development, and live entertainment operations. The Amusement Business conducts planning, development, production and sales of amusement machines, and planning and operation of amusement facilities, etc.

From April 2022, the Visual and Music Business and the Creation Business of the IP Production Unit have been integrated into the IP Production Business.

In conjunction with this organizational restructure, the reportable segments were changed from the Digital Business, Toys and Hobby Business, Visual and Music Business, Creation Business, and Amusement Business to the Digital Business, Toys and Hobby Business, IP Production Business, and Amusement Business. Segment information of the prior fiscal year is prepared and disclosed based on the reportable segment classifications after the change.

## 2. Method for calculating the amounts of net sales, profit/loss, assets, liabilities and others by reportable segment

The accounting method used for the business segments reported is the same as the accounting method stated in "Important Information Constituting the Basis for Preparation of Consolidated Financial Statements" presented in the most recent annual security report (filed on June 20, 2022).

The profit of reportable segments is measured by operating profit.

The inter-segment transactions are based on prevailing market prices
